Developing and enhancing plans and protocols

DESCRIPTION

Planning activities include developing plans and protocols; conducting assessments; developing terrorism and other catastrophic event prevention activities; and ensuring continuity of operations in cooperation with local law enforcement, fire departments, emergency management, stadium security operations, the Fan Fest Event producer, local medical professionals, and state law enforcement. Planning for the World Cup includes meetings over the last several years which the Host Committee convened and continues to identify areas of responsibility, including the planning, coordination, and management of police services, primarily through the Miami-Dade Sheriff's Office (MDSO). MDSO personnel are tasked with providing high visibility patrols, crowd control, security, traffic control, prisoner transport, and response to calls for service, and will also coordinate with other law enforcement, emergency management, and public safety officials. The essential credentialing process will be vetted by FIFA personnel and the MDSO credentialing committee who will provide the proper access credentials for the applicable personnel working the event.

DESCRIPTION

The operational overtime and surge staffing will be utilized for major event security, critical infrastructure protection, dignitary details, training, and emergent incidents. By investing in the Host Committee and allowing for sub-awards, the funding advances key program objectives: • Improved regional security through shared detection and early warning systems, interagency coordination and rapid response capabilities • Enhanced protection of critical infrastructure such as airports, seaports, stadiums, and energy facilities • Stronger multi-jurisdictional response capabilities to threats • Increased situational awareness for public safety entities during major events • Unified threat protocols across local agencies for the 2026 FIFA World Cup

JUSTIFICATION

Reduced due to lower allocation amount.

Overtime for information, investigative, and intelligence sharing activities (up to 50% of the allocation)

DESCRIPTION

MDSO's counterterrorism intelligence component collects and distributes criminal and terrorism-related intelligence internally, across the region, and statewide. Analysts collect data and report on all critical infrastructure and place that data in one repository platform, mandated by the Governor's office, so law enforcement agencies and other entities that need to know may be granted access for planning, awareness, educational purposes, and coordinated complex attack prevention purposes. In a heightened threat environment that is ever evolving, robust detection and monitoring capability is key for threat identification and mitigation. As threats are identified, it requires the appropriate response from the detectives and analysts at MDSO, with jurisdiction over all Miami-Dade County, which encompasses 32 other jurisdictions. Since human behavior is unpredictable, threats are encountered every day and every hour. As detectives and analysts are mitigating threats during their daily work hours, many times the follow up requires action beyond their work duty hours to mitigate the threat. This requires after-hour interviews, surveillance, search warrants, and arrests. Overtime and surge staffing would be utilized to supplement these circumstances for threat mitigation and enforcement actions as warranted.

DHS/FEMA funded activities that could have an impact on the environment are subject to the FEMA EHP review process. This review does not address all federal, state, and local requirements. Acceptance of federal funding requires the recipient to comply with all federal, state, and local laws. DHS/FEMA is required to consider the potential impacts to natural and cultural resources of all projects funded by DHS/FEMA grant funds, through its EHP review process, as mandated by: the National Environmental Policy Act; Endangered Species Act; National Historic Preservation Act of 1966, as amended; Clean Water Act; Clean Air Act; National Flood Insurance Program regulations; and any other applicable laws, regulations and executive orders. General guidance for FEMA's EHP process is available on the DHS/FEMA Website. Specific applicant guidance on how to submit information for EHP review depends on the individual grant program. Applicants should contact their grant Program Officer to be put into contact with EHP staff responsible for assisting their specific grant program. The FEMA EHP review process must be completed before funds are released to carry out the proposed project, otherwise, DHS/FEMA may not be able to fund the project due to noncompliance with EHP laws, executive orders, regulations, and policies. DHS/FEMA may also need to perform a project closeout review to ensure the applicant complied with all required EHP conditions identified in the initial review. If ground disturbing activities occur during construction, the applicant will monitor the ground disturbance, and if any potential archaeological resources are discovered, the applicant will immediately cease work in that area and notify the pass-through entity, if applicable, and DHS/FEMA. EO 11988, Floodplain Management, and EO 11990, Protection of Wetlands, require that all federal actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate, and be evaluated for social, economic, historical, environmental, legal, and safety considerations. FEMA's regulations at 44 C.F.R. Part 9 implement the EOs and require an eight-step review process if a proposed action is in a floodplain or wetland or has the potential to affect or be affected by a floodplain or wetland. The regulation also requires that the federal agency provide public notice of the proposed action at the earliest possible time to provide the opportunity for public involvement in the decision-making process (44 C.F.R. § 9.8). Where there is no opportunity to relocate the federal action, FEMA is required to undertake a detailed review to determine what measures can be taken to minimize future damages to the floodplain or wetland.

The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribal Nations where it does not already exist.

For awards with an approved budget where the federal share is greater than the simplified acquisition threshold (currently \$250,000) and where the cumulative amount of such transfers exceeds or is expected to exceed ten percent (10%) of the total budget FEMA last approved, transferring funds among direct cost categories, programs, functions, or activities is unallowable without prior written approval from FEMA. For purposes of awards that support both construction and non-construction work, 2 C.F.R. section 200.308((f)(9) requires the recipient to obtain prior written approval from FEMA before making any fund or budget transfers between the two types of work.
